## ISC 2015

Land Development Department (LDD), a long-standing government agency who successfully runs a well-known “Volunteer Soil Doctor Program” and promotes sustainable soil management for food security and well-being of farmers, cordially invite scientists, academia, practitioners, policy makers, and interested persons to participate in the “International Conference on Sustainable Uses of Soil in Harmonized with Food Security”. This conference is a part of the International Year of Soils (IYS), aiming to exchange views and experiences in relation to sustainable uses of soils to secure food production of our societies.

**The conference is divided to 5 topics announcement with sub topics to be addressed as follows:**

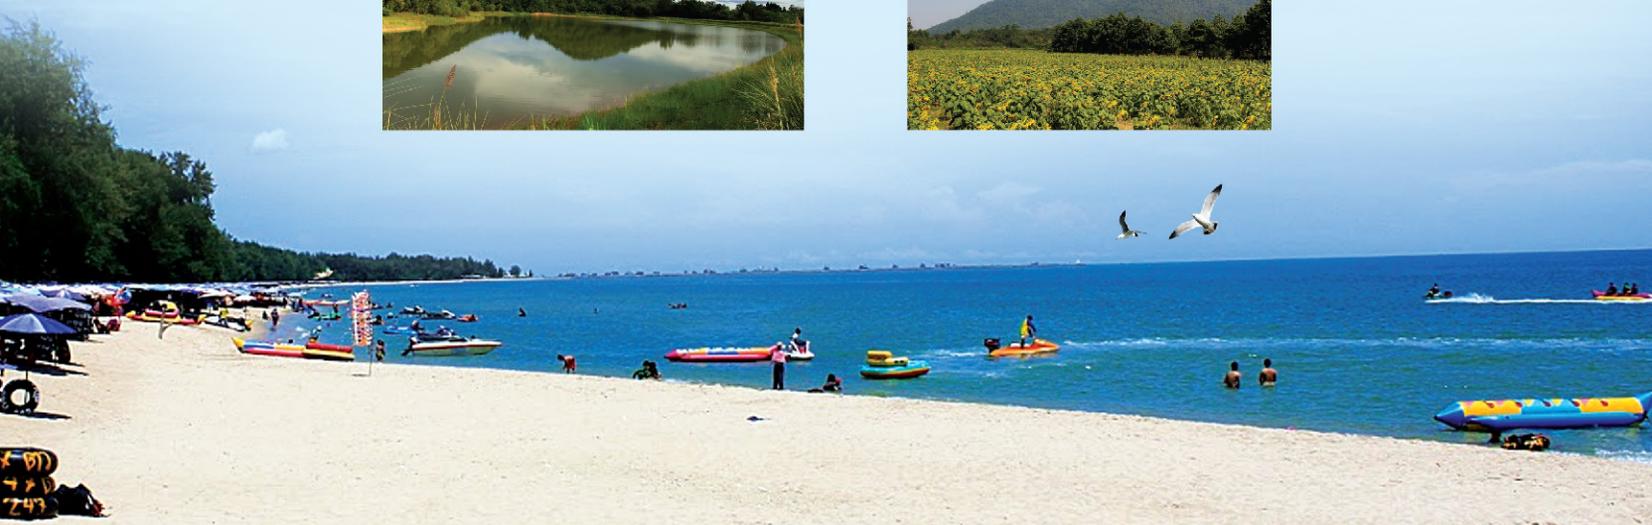

- Soil information for supporting sustainable uses and management
- Integrated soil management and conservation for food security
- Role of soil ecology in relation to climate change and food security
- Innovative techniques and tools for soil resources inventories and appropriate management
- Public participation, networking and policy implementation on land management
